

AIIMS Level 2 and complex incident training

Overview:

The training package for AIIMS Level 2 and complex incidents includes the following Units of Competency:

- PUAOPE018 – Control a Level 2 Incident
- PUAOPE025 – Manage planning for a complex incident
- PUAOPE023 – Manage operations for a Level 2 incident
- PUAOPE022 – Manage logistics for a complex incident
- Manage the public information function at an incident (non-accredited)

Each unit will generally consist of a 5 day course with pre-course online assignments.

Further pre-requisites for each course are listed under the pre-requisites section.

Training suited to:

Selected members of NT Government (“All Hazards All Agencies” approach) who have been identified to undertake a role in the Incident Management Team (IMT) during declared operations or Level 2 & 3 Emergencies.

Each course has maximum candidate participation of 6 places.

Participant commitment:

Total of 45 hours; consisting of 5 x 8 hour days of class-time and allows 5 hours for pre-course work.

Training program outcomes:

On completion of this training, members will be able to:

- Apply AIIMS principles to their respective roles in all incidents to ensure safe, effective and efficient incident management.
- Demonstrate an understanding of the NT Emergency Management Arrangements (NTEMA) and legislation.
- Undertake the lead role for a functional section within the IMT.

Endorsement

Nominations for this training must be endorsed by their agencies Emergency Management Coordinator or equivalent role.

All nominations should be forwarded through the agencies Emergency Management Coordinator, or Training Division to Training.EMTU@pfes.nt.gov.au

USI

A Unique Student Identifier is required from all participants applying for an accredited course.

Certificates of attainment will only be issued to participants providing their USI. Visit www.usi.gov.au to create or find your USI.
