

# SAFETY TIPS FOR QUAD BIKE RIDERS

**Always wear the correct protective gear** including a helmet, jacket, pants, boots and gloves

**Undertake training** or have sufficient experience before operating a quad bike

**Ride to the conditions** - you should have sufficient strength, weight and agility to ride safely and react quickly

**Never ride double** - sharing a single seat can make a quad bike hard to handle

**Keep the wheels on the ground** at all times

**Don't ride on the road** - unless you're registered to do so

**Police are in the area and are targeting vehicles driving on roads and verges without registration.**

**IT IS ILLEGAL TO DRIVE A QUAD BIKE ON A PUBLIC ROAD OR PUBLIC PLACE INCLUDING A PARK, BEACH OR FOOTPATH - UNLESS YOU HAVE A CONDITIONAL REGISTRATION.** *Avoid the fine!*

**You can apply for conditional registration for a quad bike or all-terrain vehicles (ATV) for work related purposes.**

You can apply for work related purposes including any of the following:

- roadside litter collection
- herbicide spraying
- ground maintenance
- park management

Driving on wet roads or rough terrain is not regarded as a sufficient reason for conditional registration.
