**Provisional Data**

- 1 Data for the most recent three months (shown as shaded) should be treated as provisional. Numbers of offences in these months may increase by 5-10% for the NT and by a larger percentage in regions, as investigations and data entry are completed over the next several months.

**Explanatory Notes**

- 1 These statistics were prepared by the Criminal Justice Research and Statistics Unit based in the Northern Territory Department of the Attorney-General and Justice for use by Government agencies, other organisations, researchers and members of the public.
- 2 The information used to prepare these statistics was recorded by the Northern Territory Police in the Police Real-time On-line Management Information System and extracted on 1 April 2019. The system is frequently updated as new information comes to light. Therefore these statistics may differ slightly from those produced at an earlier or later date.
- 3 The suggested citation for this information is: Northern Territory Crime Statistics, data through February 2019. Department of the Attorney-General and Justice, April 2019.
- 4 These data represent offences. Offence statistics may not be comparable with those published by other jurisdictions as offence definitions have not been standardised.
- 5 Offences are classified using the Australian and New Zealand Standard Offence Classification (ANZSOC) 2011. The Northern Territory Police divide category 0711 (Unlawful entry) into offences against residential properties (House break-ins) and against other properties (Commercial break-ins). Each of these is divided into actual and attempted break-ins.
- 6 Offence rates are calculated using the NT Estimated Resident Population data from the Australian Bureau of Statistics (Australian Demographic Statistics, cat. 3101.0, with regional splits based on Regional Population Growth, Australia, cat. 3218.0). The offence rates should be considered indicative only. Population estimates used are shown in the Appendix.
- 7 Involvement of domestic violence and/or alcohol in the offence is determined by the NT Police at the time of the offence. In some situations it is not possible to determine whether alcohol is involved in an offence.
- 8 The Northern Territory has a small population and certain offences show strong seasonal impacts. Therefore, the crime statistics can fluctuate considerably between months, particularly at a regional level. These fluctuations should not, of themselves, be interpreted as changing trends in crime. The crime statistics are also subject to influence from changes in legislation, public behaviour in reporting crime and Police operations. Care should be used in attributing annual changes to a particular cause.
