New Time Series

- 1 Following the implementation of the NT Police SerPro system on 27 November 2023, the crime statistics from December 2023 onwards have been determined to be not comparable with earlier published NT crime statistics. December 2023 represents a break in the series, and data for December 2023 onwards will be published separately.

Provisional Data

- 2 Following consultation with the Criminal Justice Research, Evaluation and Statistics Unit and for transparency, the Northern Territory Government has decided to publish these statistics with the following disclaimer. Since the implementation of the SerPro system in November 2023, it has been identified that entry of the data used for crime statistics generally happens later in the investigation process when compared to the previous PROMIS system. This means that monthly data takes longer to settle and may take several months to reflect the actual numbers of offences recorded by police. For this reason the monthly crime statistics should be reviewed with caution and will be marked as provisional until we know that data collection is substantially complete.
- 3 Numbers of offences in months marked provisional may increase by 10% or more for the NT and by a larger percentage in the regional tables, as investigations and data entry are completed over the next several months.

Explanatory Notes

- 1 These statistics were prepared by the Criminal Justice Research, Evaluation and Statistics Unit based in the Northern Territory Attorney-General's Department, for use by Government agencies, other organisations, researchers and members of the public.
- 2 The offences reported in this document were recorded by the Northern Territory Police in the SerPro system. The data are frequently updated as new information comes to light. Therefore these statistics may differ slightly from those produced at an earlier or later date.
- 3 The information used to prepare these statistics was extracted from SerPro on 1 November 2024. These statistics should not be compared with earlier NT crime statistics for periods prior to December 2023, as the two series are not comparable.
- 4 The suggested citation for this information is: Northern Territory Crime Statistics, data through September 2024. Attorney-General's Department, November 2024.
- 5 These data represent offences. Offence statistics may not be comparable with those published by other jurisdictions as offence definitions have not been standardised.
- 6 Offences are classified using the Australian and New Zealand Standard Offence Classification (ANZSOC) 2011. The Northern Territory Police divide category 0711 (Unlawful entry) into offences against residential properties (House break-ins) and against other properties (Commercial break-ins). Each of these is divided into actual and attempted break-ins.

7 Involvement of domestic violence and/or alcohol in the offence is determined by the NT Police at the time of the offence. In some situations it is not possible to determine whether alcohol is involved in an offence.

8 The Northern Territory has a small population and certain offences show strong seasonal impacts. Therefore, the crime statistics can fluctuate considerably between months, particularly at a regional level. These fluctuations should not, of themselves, be interpreted as changing trends in crime. The crime statistics are also subject to influence from changes in legislation, public behaviour in reporting crime and Police operations. Care should be used in attributing annual changes to a particular cause.
