### End of the Time Series

- 1 Following the implementation of the NT Police SerPro system on 27 November 2023, the crime statistics from December 2023 onwards have been determined to be not comparable with earlier crime statistics. December 2023 represents a break in the series, and data for December 2023 onwards will be published separately.

### Explanatory Notes

- 1 These statistics were prepared by the Criminal Justice Research and Statistics Unit based in the Northern Territory Department of the Attorney-General and Justice for use by Government agencies, other organisations, researchers and members of the public.
- 2 The majority of the offences reported in this document were originally recorded by the Northern Territory Police in the Police Real-time On-line Management Information System (PROMIS). This system was replaced by SerPro on 27 November 2023. Historical offences in PROMIS were cleansed and loaded into SerPro. The data cleansing and conversion process resulted in small changes, and the data are frequently updated as new information comes to light. Therefore these statistics may differ slightly from those produced at an earlier or later date.

The information used to prepare these statistics was extracted from SerPro on 1 March 2024. Caution should be used in comparing November 2023 statistics with those in previous months or years as data entered through SerPro may differ in some respects to historical data entered in PROMIS and converted to SerPro.

- 3 The suggested citation for this information is: Northern Territory Crime Statistics, data through November 2023. Department of the Attorney-General and Justice, March 2024.
- 4 These data represent offences. Offence statistics may not be comparable with those published by other jurisdictions as offence definitions have not been standardised.
- 5 Offences are classified using the Australian and New Zealand Standard Offence Classification (ANZSOC) 2011. The Northern Territory Police divide category 0711 (Unlawful entry) into offences against residential properties (House break-ins) and against other properties (Commercial break-ins). Each of these is divided into actual and attempted break-ins.
- 6 Offence rates are calculated using the NT Estimated Resident Population data from the Australian Bureau of Statistics (Australian Demographic Statistics, cat. 3101.0, with regional splits based on Regional Population Growth, Australia, cat. 3218.0). The offence rates should be considered indicative only. Population estimates used are shown in the Appendix.
- 7 Involvement of domestic violence and/or alcohol in the offence is determined by the NT Police at the time of the offence. In some situations it is not possible to determine whether alcohol is involved in an offence, in which cases alcohol involvement will be recorded as No.

8 The Northern Territory has a small population and certain offences show strong seasonal impacts. Therefore, the crime statistics can fluctuate considerably between months, particularly at a regional level. These fluctuations should not, of themselves, be interpreted as changing trends in crime. The crime statistics are also subject to influence from changes in legislation, public behaviour in reporting crime and Police operations. Care should be used in attributing annual changes to a particular cause.

<sup>1</sup> Population values for the Northern Territory as at the dates shown are as published by the Australian Bureau of Statistics in *Australian Demographic Statistics*, cat no. 3101.0.

<sup>2</sup> Populations for the urban centres and NT Balance are estimated using the percentage that each makes up of the total Northern Territory population in the closest year available in *Regional Population Growth, Australia*, cat no 3218.0, published by the Australian Bureau of Statistics. Regional estimates may not sum exactly to the NT total population due to rounding.

Definitions of the areas included in each urban centre and the NT Balance can be found at
