Explanatory Notes

New Time Series

- 1 Following the implementation of the NT Police SerPro system on 27 November 2023, the crime statistics from December 2023 onwards have been determined to be not comparable with earlier published NT crime statistics. December 2023 represents a break in the series, and data for December 2023 onwards will be published separately from earlier data.

New Offence Classification

- 2 Offences are classified using the new Australian and New Zealand Standard Offence Classification (ANZSOC) 2023, which was developed by the Australian Bureau of Statistics and is currently being implemented by all Australian jurisdictions. The new classification differs from the previous classification, and means that new breakdowns for certain offences are available. The crime statistics published from March 2025 onwards use this classification for all offences, including historical offences. However, users should be careful in comparing statistics published under the new classification with statistics from earlier releases using the old classification, as some offences have been recategorised. A list of key offence recategorisations affecting the NT Crime Statistics is included at "Key changes".

Provisional Data

- 3 Statistics for the first four months of publication should be treated as provisional. Numbers of offences in the NT for the latest month may increase by 10-15% over time, while numbers in the three prior months may increase by 5-10%, as investigations and data entry are completed over the next several months. Increases may be larger in the regional data.

General Information

- 1 The suggested citation for this information is: Northern Territory Crime Statistics, data through May 2026. Attorney-General's Department, July 2026.

- 2 These statistics were prepared by the Criminal Justice Research, Evaluation and Statistics Unit based in the Northern Territory Attorney-General's Department for use by Government agencies, other organisations, researchers and members of the public.
- 3 The information used to prepare these statistics was extracted from SerPro on 1 July 2026. These statistics should not be compared with earlier NT crime statistics for periods prior to December 2023, as the two series are not comparable.
- 4 The offences reported in this document were recorded by the Northern Territory Police in the SerPro system. The data are frequently updated as new information comes to light. Therefore these statistics may differ slightly from those produced for the same time period at an earlier or later date.
- 5 These data represent counts of offences. Offence statistics may not be comparable with those published by other jurisdictions as offence definitions have not been standardised.
- 6 Involvement of domestic violence and/or alcohol in the offence is determined by the NT Police at the time of the offence. In some situations it is not possible to determine whether alcohol is involved in an offence, in which cases alcohol involvement will be recorded as No.
- 7 The Northern Territory has a small population and certain offences show strong seasonal impacts. Therefore, the crime statistics can fluctuate considerably between months, particularly at a regional level. These fluctuations should not, of themselves, be interpreted as changing trends in crime. The crime statistics are also subject to influence from changes in legislation, public behaviour in reporting crime, and Police operations. Care should be used in attributing annual changes to a particular cause.

Definitions are based on the Australian and New Zealand Standard Offence Classification system of 2023, published by the Australian Bureau of Statistics.

Northern Territory Crime Statistics Data for May 2026

Key changes to offence classifications affecting the NT Crime Statistics following implementation of the Australian and New Zealand Standard Offence Classification (ANZSOC) 2023.

1. Driving causing death or serious injury

In the old classification, Driving causing death (categorised as Homicide) included only hit-and-run driving resulting in death. Offences involving dangerous or reckless driving resulting in death or serious injury were grouped with other dangerous driving offences in the subdivision of 'dangerous and negligent operation of a vehicle'. This subdivision was excluded from the crime statistics report, as most of these offences do not necessarily have an immediate victim.

In the new classification, all dangerous driving offences resulting in death are included in the subdivision 0132 'Driving causing death', a component of the Homicide division which is included in the crime statistics. Thus it is expected that there will be an increase in the number of offences in this division compared with the old division with the same name, due to the inclusion of these offences.

In the new classification, all driving causing serious injury are now included in subdivision 045 'Driving causing serious injury'. This is part of the new division 04 'Harm or Endanger Persons', which is included in the crime statistics.

Note: There is one offence in the NT which is described as 'Driving motor vehicle causing death or serious harm'. Upon investigation, it was found that approximately one-third of these offences resulted in the death of a victim. Therefore, this offence has been classified in the '01 Homicide' division.

2. Assault

In the old classification, the offence of making a threat to kill someone was categorised as Assault. In the new classification, this offence is now categorised as 0442 Threatening behaviour. The count of assault offences has decreased slightly as a result, and the offences are now reported under 044 Acts that threaten, harass or control.

3. Other sexual offences

This category includes offences previously categorised as offences against public order sexual standards, which were considered public order offences and not reported in the crime statistics. Included are offences such as indecent behaviour in a public place and indecent exposure. In the new classification, these offences are now classed under other sexual offences.

4. Harm or endanger persons

This category includes offences previously categorised as Abduction, Harassment and Other Offences, or as Other Dangerous or Negligent Acts Endangering Persons. The new category now includes threats to kill (previously Assault, now Threatening behaviour), and Driving causing serious injury (previously not reported with the crime statistics as it was classed with general dangerous driving offences).

5. Property offences

In general, property offences reported in the NT Crime Statistics show little or no change as a result of the recategorisation. An exception is property damage offences, where a small number of offences involving interference with a vehicle, boat, or fishing operations have been reclassified as disruptive conduct under public safety offences, which are not reported as part of the crime statistics.

Overall impact

As a result of the recategorisation of offences, the 2024 year has 0.6% more Offences against the person and 0.2% fewer Offences against property reported in the NT Crime Statistics under the new classification system than under the old system. The offences no longer reported have not been deleted: they have been recategorised under the new national offence classification scheme and are no longer included in the categories covered by the NT Crime Statistics. Similarly, the offences now reported have not been created: as a result of the recategorisation they are now included in categories reported in the NT Crime Statistics.
