Applications processed by the Information Access Team attract a fee pursuant to the *Police Administration (Fees) Regulations*.

As at **1 July, 2023**; 1 Revenue Unit is equal to **\$1.35**, therefore the following fees apply:

Type of Request/Application	Revenue Unit	Current Fee	Tax Code
Motor Vehicle Crash Report	50	\$67.00	N00
Interview a Police Member	50 (per half hour or part thereof for each member that is interviewed)	\$67.00	N00
Complete Traffic History Check	50	\$67.00	N00
General Property Insurance Reports for Insurance Companies	50	\$67.00	N00
CCTV Footage from NT Police's City Safe Cameras	-	\$115.00	N00

Please be advised that Revenue Units are governed by the Northern Territory *Revenue Units Act 2009* (the Act) and are subject to change 1 July each year.

The Northern Territory Department of Treasury and Finance determine the value of a Revenue Unit for all Northern Territory Government Departments.

The Act commenced on 1 January 2010 and provides a scheme to allow for Northern Territory Government fees and charges to be expressed as a number of revenue units rather than dollar amounts. This provides a simple process for maintaining the real value of Territory fees and charges to take into account the effect of inflation.

The Act provides for the automatic annual adjustment of fees and charges by setting the value of a revenue unit in line with increases in the Darwin Consumer Price Index on 1 July of each year. The value of a revenue unit was set at \$1 until 30 June 2011.

The adjustment is calculated on the movement in the Consumer Price Index for Darwin published by the Australian Bureau of Statistics for the four quarters of the calendar year immediately preceding the relevant financial year. Adjustment to the value of a revenue unit will be declared prior to the start of the financial year to which the change relates.

To calculate the value of a fee or charge expressed in revenue units, multiply the number of revenue units by the value of a revenue unit. The Act provides that where the monetary amount of a fee or charge expressed in revenue units is not a multiple of \$1, the amount is rounded down to the nearest \$1.

For example, if a revenue unit is \$1.11, then the value of a fee expressed as 110 revenue units is \$122 (110 x \$1.11 = \$122.10, rounded down to \$122).
